On Surface Color

Material Design’s theme variable has no equivalent on Material UI (React Library)

```
$mdc-theme-on-surface: #13426b;
```

To make the same style, we will have to override the style at component level (e.g. on text fields, paragraph), propose to use the default instead of overriding.

```
$mdc-theme-on-surface: #000000;
```

Pros:
Usability improvement
Design and code integrity
Design system communication

Cons:
Less sync with corporate website on color

Impact:

Development team to remove the overriding style code
Update the Axure Library
